IT 7733- New Course

This revision is to keep the program up to date, grow the program, and improve RPG. New courses represent faculty expertise. The changes include regrouping electives based on focus areas and to make more clear, adding 6 new courses, revising 5 courses (prerequisite or catalog description), discontinue 3 courses, changing admission standard where a letter of recommendation is highly recommended but not required, add embedded graduate certificate language to catalog description, and adjust list of disciplines for free electives.

Bill Baily and Reza Parizi motioned to approve with waiving a second reading.

M.A. Karim and Marina Koether seconded the motion.

Package was approved by voting members in attendance, including proxies, with no dissent.

Package #12 Faculty Contact- Coskun Cetinkaya (Jose Garrido presented)

College of Computing and Software Engineering- Department of Computer Science
Number of Individual Proposals: 9

Computer Science, MSCS- Program Change

CS 7075- Course Change
CS 7260- Course Change
